## **Prospectus Of Kwazulu Natal 2016:**

University Community Engagement and Lifelong Learning Julia Preece, 2017-07-13 This book offers a conceptual re think of how university community engagement functions as a lifelong learning resource for communities While having a specific focus on the South African context it has important implications for other universities which are concerned with their communities and makes a compelling argument for the university as a public good in spite of current trends towards marketization and commodification of higher education The book draws on a theoretical framework of capabilities asset based community development and the adult learning concept of dialogue to propose a model whereby the boundary walls of the university become metaphorically porous so that community members feel free to interact with the university as equal members of society A historical outline of African universities is provided as well as an exploration of the evolution of terms for community engagement service learning and learning cities and an examination of the policy and practice implications for the ideological model of a porous university
