Iipinge,Debie LeBeau,2005 The Namibia chapter in the Beyond Inequalities series was produced by the University and Namibia and the WIDSAA Programme of SARDC Gender machinery in Namibia is relatively new hence the importance of monitoring and evaluating at community and national levels This publication focuses on the post Beijing legal reforms in the country It summarises information on the position of women in Namibia in relation to economic politics health socio cultural environments and the law It considers policies formulated by the government of Namibia with input from NGOs such as the National Gender Policy and findings from studies conducted on behalf of the Ministry of Women Affairs and Child Welfare Overall the study brings to the fore pertinent issues that require urgent redress with particular regard for poverty illiteracy inequality oppression and HIV AIDS outlining recommendations for improvement **Discovery and Innovation** ,2005 Beijing + 10 Justine Hunter,2004

Tombe,2017-09-28 The South Sudan Skills Story is an account about manpower and education development in South Sudan a narrative that includes efforts exerted in attainment of the much needed workforce for fuelling the countrys economy now fatally impacted by the ongoing internal strife Prior to escalation of the armed conflict that broke out in December 2013 hardly four years after the country gained its sovereignty on July 9 2011 the new nation was on course in setting up its new education system and basis of sustainable human development now shattered by the vicious war The conflict has eroded the countrys human potential through loss of life skills wastage and extreme brutalities perpetrated against citizens by the war drivers The education quandary is compounded by displacement of over 3 million people from their homes and localities a dire situation that has caused severe food insecurity affecting over 7 5 million people With over 2 million children forced out of school particularly in the most conflict affected regions of South Sudan including over 1 4 million forced out of the country as refugees to neighbouring countries it means that one in every three children in the country is out of school The scale and magnitude of

the unending human dispersal has severely curtailed South Sudans ability to provide education to all its citizens The once adopted slogan of bringing education to all in the country is now a far cry as the new nation heads to total collapse if the conflict is not halted The South Sudan Skills Story urges the leaders of South Sudan who are proponents of the conflict to rise above self serving political cleavages to stop the war for peace so that all the citizens are availed the opportunity to realize their fullest potential for development of the country The narrative concludes that the people of this young nation will remain one of the most undereducated populations in the world as long as the legacy of war violence and impunity prevails in the country
