Caution

- Do not use the system in a closed cabinet or other locations where heat may build up. Doing so may cause the system to overheat and may lead to fire, injury or malfunction.
- If the system's internal temperature becomes elevated, the power indicator will flash alternately in red and green. In this case, turn off the system (→ page 16) and leave it unused for a while. After the system cools down, move it to a location with good ventilation, and then resume use.

Tip

The system can be set in a horizontal or vertical position. Set as shown in the diagram at right when setting in the vertical position.

Notice

Do not place the system in an area subject to excessive dust or cigarette smoke. Dust build-up or cigarette smoke residue on the internal components (such as the lens) may cause the system to malfunction.
