The Toxic Meritocracy of Video Games Christopher A. Paul, 2018-02-20 An avid gamer and sharp media critic explains meritocracy's negative contribution to video game culture and what can be done about it Video games have brought entertainment education and innovation to millions but gaming also has its dark sides From the deep bred misogyny epitomized by GamerGate to the endemic malice of abusive player communities gamer culture has had serious real world repercussions ranging from death threats to sexist industry practices and racist condemnations In *The Toxic Meritocracy of Video Games* new media critic and longtime gamer Christopher A Paul explains how video games focus on meritocracy empowers this negative culture Paul first shows why meritocracy is integral to video game design narratives and values Games typically valorize skill and technique and common video game practices such as leveling build meritocratic thinking into the most basic premises Video games are often assumed to have an even playing field but they facilitate skill transfer from game to game allowing certain players a built in advantage *The Toxic Meritocracy of Video Games* identifies deep seated challenges in the culture of video games but all is not lost As Paul argues similarly meritocratic institutions like professional sports and higher education have found powerful remedies to alleviate their own toxic cultures including active recruiting and strategies that promote values such as contingency luck and serendipity These can be brought to the gamer universe Paul contends ultimately fostering a more diverse accepting and self reflective culture that is not only good for gamers but good for video games as well
