**The Reference Catalogue of Current Literature** ,1910      The End of Secrecy Beth M. Kaspar,2001 This study focuses on military competitiveness in the age of transparency and asserts that the U S military must consciously prepare itself to fight in an information transparent world created by globalization The worldwide explosion in the quantity and quality of information and products available to the general public user the ready accessibility to the information and the affordability in acquiring any desired data or product is creating a transparent world at an alarming rate In the future anyone can affordably keep tabs on the actions of everyone else Hence the U S military must consciously begin to investigate ways to maintain its military advantage in this rapidly evolving and increasingly transparent world It must minimize the impact transparency has on how we will fight wars and conduct contingency actions We must not be caught by surprise Maintaining U S military competitiveness will require multifaceted solutions This study investigates how the U S can retain its military advantage in the coming age of transparency The inevitable economic pressure of the web or more generally information e commerce is advancing the rate of global transparency      An Oral-Formulaic Study of the Qur'an Andrew G. Bannister,2014-04-24 The Qur'an makes extensive use of older religious material stories and traditions that predate the origins of Islam and there has long been a fierce debate about how this material found its way into the Qur'an This unique book argues that this debate has largely been characterized by a failure to fully appreciate the Qur'an as a predominately oral product Using innovative computerized linguistic analysis this study demonstrates that the Qur'an displays many of the signs of oral composition that have been found in other traditional literature When one then combines these computerized results with other clues to the Qur'an's origins such as the demonstrably oral culture that both predated and preceded the Qur'an as well as the folk memory in the Islamic tradition that Muhammad was an oral performer these multiple lines of evidence converge and point to the conclusion that large portions of the Qur'an need to be understood as being constructed live in oral performance Combining historical linguistic and statistical analysis much of it made possible for the first time due to new computerized tools developed specifically for this book Bannister argues that the implications of orality have long been overlooked in studies of the Qur'an By relocating the Islamic scripture firmly back into an oral context one gains both a

fresh appreciation of the Qur'an on its own terms as well as a fresh understanding of how Muhammad used early religious traditions retelling old tales afresh for a new audience      **Proceedings of the 1992 ACM Conference on LISP and Functional Programming** Association for Computing Machinery, 1992      **The United States Catalog** George Flavel Danforth, Marion Effie Potter, 1900
