Ultra where you definitely end up when one up our usual Plus We are saying Samsung's bested itself this year and has gone beyond its S21 to give us the Galaxy S21 Ultra 5G While leading the roster this year the Ultra made a shift when it is compared to the 2020 lineup Whereas we had the similar the previous year in many ways S10 and S10 the S10e positioned beneath them but now there's a model which ranked above the typical S21 and S21 the new autograph makes all the sense then The s21 ultra 5G has an even bigger display and packs a larger battery with faster charging mode than the others plus it even comes with up to a tremendous 16GB of RAM The camera is probably the most extraordinarily built we've seen to date The main cam uses a ample 108MP sensor that combines 9 small pixels into a big one with dispensational designed to use the extra information being gathered Samsung calls it Nonacell the telephoto shooter this has an unmatched blend of a large 48MP imager with a periscope lens presenting 4x optical zoom above the main There is another ultra camera touch over the front Samsung's fitted a 40MP selfie unit to make it unique from the regular 10MP units on the ordinary S21s Read along as you get to know your device
