Gaidzanwa, 2001 *Higher Education Review*, 1989 **Internationalisation of African Higher Education** Chika Sehoole, Jane Knight, 2013-10-30 The role of higher education especially the international dimension is given little importance in the discourse on achieving the Millennium Development Goals MDGs in Africa This book aims to change that The potential of higher education s contribution to Africa s development remains unrealized and often misunderstood In today s globalised world which prioritises economic growth through liberalised trade and competitive market strategies much emphasis has been placed on higher education s ability to produce graduates to serve the labour market and produce new knowledge for the knowledge economy While these are important contributions the book argues that international higher education and new knowledge must go beyond economic purposes and serve the human and social development needs of the continent It is against this background that the African Network for the Internationalisation of Education ANIE undertook research on the international dimension of higher education in Africa and its role in the achievement of the MDGs Through empirical research seven case studies address how international and regional higher education programmes and policies in African universities can address MDG priorities of promoting gender equality and women s empowerment combating HIV AIDS and establishing global partnerships for development through academic mobility joint research initiatives curriculum innovation and policy development

**Towards Negotiated Co-management of Natural Resources in Africa** L. B. Venema, 1999 Within the field of management of natural resources this book focuses on the various approaches of policy formulation and implementation The question central to this book is how to co operate with people the various categories of residents as well as non residents in the rural areas in a top down a participatory or a contractual co management way On the basis of a comparative analysis of 12 case studies in the book these three approaches are thoroughly discussed and their internal and external constraints examined The book starts with an editorial chapter discussing the recent administrative and political developments in Africa as well as the new opportunities which they offer for policies in the field of environment and development The question is brought up whether the recent processes of decentralization democratization and empowerment of local organizations have indeed created new opportunities or that they have only superficially changed the political culture of the countries concerned In the concluding chapter of the book the approaches are contrasted to each other as logical models each with its own potentiality and limitations Conclusions are

formulated why the top down approach must result in improvisation to escape from failure and why the participatory approach risks to end up into a mixed balance Special attention is given to the conditions and the prospects for the contractual or co management approach which has been introduced into Africa only recently Under certain conditions this approach seems rather promising **Administering Education in Namibia** Cynthia Cohen,1994 **Estudios en El Extranjero** Unesco,2003 This is the 32nd edition of the publication which contains over 2 500 entries giving information about post secondary education and training opportunities in all academic and professional fields in 147 countries for years 2004 and 2005 It has a special focus on distance education including open and distance learning ODL with an annotated listing of online directories and databases of ODL courses worldwide Information is also given on courses scholarships and financial assistance available to foreign students recognition of studies and diplomas obtained abroad and key issues students should consider before embarking on higher education study The text is written in English French and Spanish
