*Your Library Is the Answer* Christina T. Russo, Cathy Swan, 2015-01-22 Today's tech savvy and digitally connected students present a new challenge for today's school librarians. This book offers the 21st century tools and know-how necessary for educators to appeal to and challenge students to learn and to want to learn. What are the best ways to motivate students to become engaged and develop a passion for learning? Can appealing to their desire for socialization and constant communication attributes of their lives outside of education via the integration of cutting edge technologies and new media in the library or classroom serve to ignite creativity, curiosity, and critical thinking? This book shows how you can make use of non-traditional tools such as popular social networks, collaborative technologies, and cloud computing to teach information and communications technologies integrated with the school curriculum to improve student learning and demonstrates how these same technologies can help you measure skills and mastery learning. The book provides an easy-to-follow blueprint for using collaborative techniques, innovation, and teaching for creativity to achieve the new learning paradigm of self-directed learning such as flipping the classroom or library. Readers of this book will find concrete step-by-step examples of proven lesson plans, collaborative models, and time-saving strategies for the successful integration of American Association of School Librarians (AASL) standards. The authors, both award-winning teachers, explain the quantitatively and qualitatively measurable educational value of using these technologies for core curricular and information and communications technologies instruction, showing that they both enhance student learning outcomes and provide data for measuring their impact on learning.

*Learning and Teaching Creative Cognition* Marjorie S. Schiering, 2015-08-13 At the onset, this book provides explanations and definitions for what it is to be creative. Research-based viewpoints and personal perspectives on creativity lead to an introduction of an Interactive Methodology (IM) and interactive instructional strategies focused on The Interactive Book Report (IBR). Learning through play is emphasized. Special needs students, learning styles, thinking, and feeling: a psychologist and scientist's perspectives, effect and affect of the IM and IBR with leadership building are presented. Differentiated instruction, activities, mindfulness, neuroplasticity, five case studies involving classroom use of the book's creative cognition operatives are given explicit attention.

*Adventures in Fantasy* John Gust, 2010-02-02 *Adventures in Fantasy* offers an exciting approach to teaching narrative and descriptive writing that stimulates a student's creativity and imagination. Filled with mini-lessons, reading projects, and hands-on writing activities, the book shows teachers step-by-step how to introduce students to the magic of creating a complete story in the fantasy adventure genre. Before fleshing out their stories, however, students are asked to construct actual maps of their fantasyland and then to write a travelogue describing the setting in vivid detail. This initial fantasizing encourages students to be wildly inventive in creating the drama, ogres, villains, heroes, and heroines featured in their story and on the way they learn about the mythic journey.
