

Areva Micom P921

Protection relay

Introdcution:

The Areva MICOM P921 Protection Relay plays a crucial role in [industrial automation](#) by ensuring the safety and reliability of electrical power systems. Designed for low and medium-voltage networks, this relay provides essential overcurrent and earth fault protection, safeguarding critical infrastructure in various industrial settings. Its compact design allows for easy integration into existing systems, making it a versatile choice for both new installations and upgrades. The MICOM P921 features programmable settings, enabling customization to meet specific operational requirements, and supports multiple communication protocols for seamless integration with modern control and monitoring systems.

In industrial automation, where precision and rapid response are vital, the P921 excels with its fast tripping response and event logging capabilities, allowing operators to quickly identify and address faults. The relay's robust construction ensures durability in harsh environments, while its user-friendly interface simplifies configuration and operation. Compliant with international standards, the Areva MICOM P921 is a trusted solution for enhancing the safety and efficiency of industrial automation processes.
