Re: Jane Nicholson (10.25.1995)

Dear Dr. Reynolds,

My name is Jennifer Black and I am a therapist working with Jane Nicholson. Enclosed is a signed release that allows us to share her information. The client is a 26 year old female who is an undergraduate student at Sonoma State. I have had two sessions with the client in the past two weeks. During our last session I asked that she make an appointment with you to evaluate her worsening psychotic symptoms.

[The contents of previous sessions with the client.]

[History of medical problems other than mental.]

My working diagnosis is:

- Delusional Disorder (persecutory, multiple episodes, currently in acute episode);
- Schizophreniform Disorder (good prognostic features);
- Schizoaffective Disorder (multiple episodes, currently in acute episode).

Following your assessment, I would appreciate it if you would share your evaluation with me. If you do prescribe medication, please provide a list in an email or written letter. I

Learning Disabilities and Brain Function William H. Gaddes, 2013-11-11 Reading this volume chapter by chapter I had a feeling of exuberance and exhilaration It is both a privilege and a challenge to write a foreword for this second edition of Learning Disabilities and Brain Function The scope and quality of the scientific and clinical insights expressed are unusual It is difficult to do justice to the

book within the constraints of a foreword I can only reflect its significance to instructors scientists and clinicians in education psychology psychiatry pediatrics speech pathology and neurology In the early chapters are discussions of brain function as it relates to learning and learning disabilities with many implications for better understanding of the neurology of behavior These chapters are followed by an articulate consideration of neuropsychological disorders definition identification and diagnosis of the cognitive dysfunctions that underlie learning disabilities There is an analysis of the role of perception as well as of the significance of impaired sensory and motor cognitive processes The concluding chapters comprise a clear erudite yet practical discourse on the spectrum of language disorders including the spoken read and written forms Dr Gaddes provides a constructive review of what it means when children have aphasia of how this language disorder has implications for other types of learning He elucidates and evaluates the status of our knowledge relative to childhood dyslexia and dysgraphia This analysis holds promise for clarification of the issues that have been disconcerting especially to educators and psychologists
