

# ROLLS-ROYCE BUILT "HYDRAMATIC" AUTOMATIC TRANSMISSION

David Chaundy

Photographs of a cut-away Rolls-Royce Hydramantic gearbox taken on a recent exhibition

The four speed automatic transmission fitted to the Silver Cloud and other Rolls-Royce and Bentley models owed its origins to General Motors in the United States. The Hydramantic transmission was the world's first mass produced fully automatic gearbox. G.M. tested their first prototypes in 1938. After further refinement the transmission was finally launched late in 1939 with some fanfare and became known as "Hydramantic drive". Initially it was fitted as an option to Oldsmobile's 1940 models costing around £12. Within a year of the launch of "Hydramantic drive" Cadillac offered it as an option on their cars. Pontiac not wanting to be out done by the competition also started fitting the Hydramantic shortly afterward. 200,000 Hydramantic transmissions were built before the 2nd world war stopped production. The tooling was put away until hostilities ceased. By 1946 Hydramantics were once again in production.
