ECRM2014-Proceedings of the 13th European Conference on Research Methodology for Business and Management Studies Dr Martin Rich, Dr Anne Brown, 2014-06-16 **Behavioral Science & Policy: Volume 2, Issue 1** Craig Fox, Sim B. Sitkin, 2016-11-22

The success of nearly all public and private sector policies hinges on the behavior of individuals, groups, and organizations. Today such behaviors are better understood than ever thanks to a growing body of practical behavioral science research. However, policymakers often are unaware of behavioral science findings that may help them craft and execute more effective and efficient policies. The pages of this new journal will become a meeting ground, a place where scientists and non-scientists can encounter clearly described behavioral research that can be put into action. By design, the scope of BSP is broad, with topics spanning health care, financial decisionmaking, energy, and the environment, education and culture, justice and ethics, and work place practices. Contributions will be made by researchers with expertise in psychology, sociology, law, behavioral economics, organization science, decision science, and marketing. The journal is a key offering of the Behavioral Science Policy Association in partnership with the Brookings Institution. The mission of BSPA is to foster dialog between social scientists, policymakers, and other practitioners in order to promote the application of rigorous empirical behavioral science in ways that serve the public interest. BSPA does not advance a particular agenda or political perspective. The first issue's contents follow:

Fanon, Fanon, and the Violence of Resistance Zahi Zalloua, 2025-06-26

In a novel pairing of anti-colonial theorist Frantz Fanon with Marxist Lacanian philosopher Slavoj Žižek, Zahi Zalloua explores the ways both thinkers expose the violence of political structures. This inventive exploration advances an anti-racist critique describing how ontology operates in a racial matrix to produce some human bodies that count and others deemed not quite or non-human that do not. For Fanon and Žižek, the violence of ontology must be met with another form of violence: a revolutionary violence that delegitimizes the logic of the symbolic order and troubles its collective fantasies. Whereas Fanon begins his challenge to ontology by exposing its historical linkages to Europe's destructive

imperialist procedures before proceeding to stretch Marxism along with psychoanalysis to account for the crushing neo colonial situation i ek premises his work on the refusal to accept the totality of ontology Because of these different points of intervention Fanon and i ek together offer a powerful and multifaceted assessment of the liberal anti racist paradigm whose propensity for identity politics and aversion to class struggle silence the cry of the dispossessed and foreclose radical change Avoiding contemporary separatist temptations decoloniality and Afropessimism and breaking with a non violent sentimental futurology that announces more of the same Fanon and i ek point in a different direction one that eschews identitarian thought in favor of a collective struggle for freedom and equality

Integrative Ophthalmology Ningli Wang, 2019-09-05 With the development of nature science and industrial
technology more and more patients are benefitting from the rapid progress in ophthalmology as the use of new medicine and
delicate surgical therapy has ensured them the chance to restore their sight However some problems have come up during
its development of which the most serious one is the limitation of the ophthalmology Eyes are not isolated organs they are
connected to our body and thus the general status of our body will affect the eyes function Therefore it is of great importance
that the ophthalmologists see the big picture while dealing with the clinical problems Based on the above observations we
put forward the concept of Integrative Ophthalmology and describe the ophthalmology related medical situations that are

prone to be neglected in clinical practice in a bid to increase the awareness of doctors from all fields that a holistic view should be adopted in clinical practice and it is the patients that we are treating rather than the disease There are 9 parts in the book containing the concept of integrative ophthalmology intraocular and intracranial pressure gradient related diseases and the relationship between the different general status and eye disorders We do believe that the integrative ophthalmology is the key to the development of ophthalmology and hope readers can benefit from this book **Climate Change 2022 -**
