Nov 2013 Gr 1dbe Exam:

Research for Educational Change Jill Adler, Anna Sfard, 2016-06-17 Research for Educational Change presents ways in which educational research can fulfil its commitments to educational practice Focussing its discussion within the context of mathematics education it argues that while research generated insights can have beneficial effects on learning and teaching the question of how these effects are to be generated and sustained is far from evident The question of how to turn research into educational improvement is discussed here in the context of learning and teaching hindered by poverty and social injustice In the first part of the book four teams of researchers use different methodologies while analysing the same corpus of data collected in a South African mathematics classroom In the second part each of these teams makes a specific proposal about what can be done and how so that its research generated insights have a tangible beneficial impact on what is happening in mathematical classrooms Combining two discourses that of researchers speaking to one another and that of researchers communicating their insights to those responsible for educational practice the book deals with the perennial question of communication between those who study educational processes and those who are directly responsible for teacher education educational research and classroom practices This book will be key reading for postgraduates researchers and academics in education and particularly in the areas of mathematics education education research teacher education and classroom practice It will also appeal to teacher educators practitioners and undergraduate students interested in educational research

Language and Sustainable Development Lisa J. McEntee-Atalianis, Humphrey Tonkin, 2023-03-03 This book addresses the importance of language in matters of sustainability and incorporating such concerns in implementing the UN's Sustainable Development Goals SDGs Sustainable language policy must aim to include all groups including language minorities and marginalized populations such as refugees and aid recipients in conditions that allow for their inclusion in making and implementing policy The book brings together nine studies covering such topics as language and digital resources sustainable and inclusive multilingual education national language policy and language in peacekeeping operations A final chapter addresses the crucial intersection between sociolinguistics and economics and the implications of this for development and the SDGs

The Report: South Africa 2013 Oxford Business Group, 2013-09-04 The Rainbow Nation benefits from an internationally competitive private sector which accounts for roughly 70% of GDP and extremely competitive infrastructure its utility sector for example produces just under half of the total power generated on the African continent South Africa represents by far the most developed market in Africa but there are still some structural challenges it is grappling with Government strategies have set a target of increasing labour market participation from 54% in 2010 to 65% by 2030 bringing the number of workers in the formal sector to 25.3m people and

lowering unemployment from 25% to 6% While its fiscal space is narrow long term investments in infrastructure education and health are expected to be key to attaining its growth potential Recent years have seen both the public and private sectors look to strengthen regulatory frameworks in mining and industry in some cases like the automotive sector with impressive results

Grading Goal Four Antonia Wulff,2020-04-14 For the third time in three decades world leaders reaffirmed their promise of Education For All when adopting Sustainable Development Goal 4 in 2015 It is the most far reaching commitment to quality and equity in education so far yet there is no consensus on what the agenda means in practice With a decade left until the 2030 deadline Grading Goal Four calls upon the education community to engage more thoughtfully and critically with SDG 4 and related efforts As an ever growing number of actors and initiatives claim to contribute to its achievement it is becoming clear that the ambitious but broad priorities within the goal are vulnerable to cherry picking and misrepresentation placing it at the heart of tensions between instrumentalist and rights based approaches to education This text a critical analysis of SDG 4 provides a framework for examining trends and developments in education globally As the first volume that examines early implementation efforts under SDG 4 Grading Goal Four formulates a critique along with strategies for moving forward By scrutinising the challenges tensions and power dynamics shaping SDG 4 it advances rights based perspectives and strategies for effective implementation and builds capacity for strengthened monitoring and analysis of the goal
