Women's Under-Representation in the Engineering and Computing Professions: Fresh Perspectives on a Complex Problem Kathleen Buse, Catherine Hill, Romila Singh, 2018-06-21 Understanding the many complexities that define gender inequality has been described by researchers as a grand challenge Novel insights innovation a broader community to conduct research and to ascertain effective interventions are essential in the challenge to create organizations that are gender equal As such this Research Topic in Frontiers in Psychology addresses the under representation of women in engineering and computing as a complex but solvable problem This Research Topic seeks to inform the global community about advances in understanding the under representation of women in engineering and computing with a focus on what enables change Further this Topic will promote fresh perspectives innovative methodologies and mixed method approaches important to accelerating the pace of change

An Assessment of the National Institute of Standards and Technology Physical Measurement Laboratory National Academies of Sciences, Engineering, and Medicine, Division on Engineering and Physical Sciences, Laboratory Assessments Board, Committee on NIST Technical Programs, Panel on Review of the Physical Measurement Laboratory at the National Institute of Standards and Technology, 2016-05-01 The Physical Measurement Laboratory PML at the National Institute of Standards and Technology NIST is dedicated to three fundamental and complementary tasks 1 increase the accuracy of our knowledge of the physical parameters that are the foundation of our technology driven society 2 disseminate technologies by which these physical parameters can be accessed in a standardized way by the stakeholders and 3 conduct research at both fundamental and applied levels to provide knowledge that may eventually lead to advances in measurement approaches and standards This report assesses the scientific and technical work performed by the PML and identifies salient examples of accomplishments challenges and opportunities for improvement for each of its nine divisions

Science Formative Assessment, Volume 1 Page Keeley, 2015-09-09 Formative assessment informs the design of learning opportunities that take students from their existing ideas of science to the scientific ideas and practices that support conceptual understanding Science Formative Assessment shows K 12 educators how to weave formative assessment into daily instruction Discover 75 assessment techniques linked to the Next Generation Science Standards and give classroom practices a boost with Descriptions of how each technique promotes learning Charts linking core concepts at each grade level to scientific practices Implementation guidance such as required materials and student grouping Modifications for different learning styles Ideas for adapting techniques to other content areas

The Well-Trained Mind Susan Wise Bauer, Jessie Wise, 2016-08-09 Is your child getting lost in the system becoming bored losing his or her natural eagerness to learn If so it may be time to take charge of your child s education by doing it yourself The Well Trained Mind will instruct you step by step on how to give your child an academically rigorous comprehensive education from preschool through high school one that will train him or her to read to think to understand to be well rounded and curious about learning Veteran home educators Susan Wise Bauer and Jessie Wise outline the classical pattern of education

called the trivium which organizes learning around the maturing capacity of the child's mind and comprises three stages the elementary school grammar stage when the building blocks of information are absorbed through memorization and rules the middle school logic stage in which the student begins to think more analytically and the high school rhetoric stage where the student learns to write and speak with force and originality Using this theory as your model you'll be able to instruct your child whether full time or as a supplement to classroom education in all levels of reading writing history geography mathematics science foreign languages rhetoric logic art and music regardless of your own aptitude in those subjects Thousands of parents and teachers have already used the detailed book lists and methods described in *The Well Trained Mind* to create a truly superior education for the children in their care This extensively revised fourth edition contains completely updated curricula and book lists links to an entirely new set of online resources new material on teaching children with learning challenges cutting edge math and sciences recommendations answers to common questions about home education and advice on practical matters such as standardized testing working with your local school board designing a high school program preparing transcripts and applying to colleges You do have control over what and how your child learns *The Well Trained Mind* will give you the tools you'll need to teach your child with confidence and success
