A. van der Sanden, Marc J. de Vries, 2016-11-25 Science technology education on the one hand and communication on the other are to a large extent still separate worlds and many

opportunities for synergy and cross fertilisation are yet unused This divide is unfortunate since educators need communication skills and communicators often use aspects of education in their strategies Moreover innovation processes in both domains ask for education and communication insights and skills Therefore scholars and practitioners in both domains must seek connections and synergy by exchanging insights and ideas This book discusses the shared aims of science technology education and communication such as science literacy and engagement as well as common processes and challenges such as social learning social design and professionalisation and assessment Aims processes and challenges that inspire enhance and deepen the education and communication synergy from a theoretical and practical side If one reads the various chapters and reflects on them from one s own perspective as a scholar or practitioner the question is no longer if cross fertilisation and synergy are needed but when are we seriously going to take up this challenge together This book aims to initiate the dialogue that the situation in the development of the topic requires at this point **100 technical questions**
