Part 5 – 7 questions –

Look at the picture and read the story. Write some words to complete the sentences about the story. You can use 1, 2, 3 or 4 words.

My first day at school

My name's Betty Stewart and I'm an English teacher. I was twenty-two years old when I got my first teaching job. I remember my first day very well!

The day didn't start well. I got up early and got dressed. Then I dropped my cereal all over my new skirt. I quickly put on clean clothes. I picked up my bag and went to the bus stop. I saw a lot of people waiting for the bus. I asked a woman, "Why are there so many people?" She said "There's a lot of traffic in the city centre and all the buses are late." So, I decided to walk to school.

I only had half an hour before my first lesson. I walked very quickly. After some time I could see the school at the end of the road. I felt very happy. Suddenly it started to rain. I ran fast but I was very wet when I arrived at school. When I got to my classroom I was five minutes late and I looked wet and horrible. At first, my new students looked surprised when they saw me. Then they all smiled and said, "Good morning Miss Stewart!" I smiled back and said "Good morning class!" After that, the day got much better.

Ten Assessment Literacy Goals for School Leaders Stephen Chappuis, Steve Chappuis, Susan M. Brookhart, Jan Chappuis, 2021-04-21 Of all school related factors that influence student learning only classroom instruction has greater impact than leadership And leaders have the greatest impact when they set direction citing that the goals and purpose they provide serves to strengthen and solidify the faculty The ten competencies for school leaders described in this book are based on a few factors First standards driven reform has created new knowledge requirements and responsibilities for school leaders In today s systems sorting students along a bell curve and artificially creating winners and losers has been replaced by a mission that all students must learn well Instead of a curriculum focused on what a teacher should teach the curriculum identifies what students must know and be able to do These standards are public and communicate what a state or district values when it comes to student learning Assessing the standards day to day not through large scale accountability tests or even local short cycle or common assessments is a requirement for effective standards based reform Second is the reward of improved student learning brought about by the use of classroom assessment for learning Assessment for learning has implications not just for school leaders but also for broader educational practice The research is conclusive and improved learning lies within the grasp of anyone wishing to apply it What does it look like when school leaders demonstrate mastery of the Ten Assessment Competencies Included in the book are examples learning activities and opportunities for practice as well as success indicators for each competency as leaders work toward mastery **Resources in Education** ,1999 Le français Frédéric Ernst, Sylvia Narins Levy, 1964 Source Materials for Secondary School Teachers of Foreign Languages Esther May Eaton, 1962 **Circular - Office of Education** United States.
