Author Jodi Wheeler-Toppen offers science activities for students and explains how these activities relate to the National Science Education Standards. Topics as varied as the cell cycle, skeletal and muscular systems, genetics, and food chains are covered in a concise manner that will appeal to teachers and students alike. She doesn't stop there, however. She follows these activities with reading strategies such as comprehension, coding, chunking, and previewing diagrams and illustrations that students can apply to science lessons and other subjects. The reading passages on science content are more student-friendly and easier to follow than typical textbooks, which might not provide the background knowledge or connections that students need to learn science content.
