School Decentralization in the Context of Globalizing Governance Holger Daun, 2006-11-23 Since the beginning of the 1980s decentralization has become a globalized policy and catchword in education a large number of countries around the world have formulated such a policy and many have also implemented it The policies and the changes at the national level have been researched but what has taken place and is taking place at the grassroots level has not received attention until recently This book presents grassroots cases from different countries against the background of the overall changes in governance philosophy and applications It uses case studies from countries in Africa Asia Europe and Latin America and describes what is occurring at this level The book gives an account of different types of decentralization and their impact The first two chapters describe principally structural and organizational educational changes in the broader context of globalized models and the pressure to create a competitive education system and changing governance Decentralization is one of the strategic aspects of this new mode of governance

Implementing School-based Management Harry P. Hatry, 1993 This report presents the findings and recommendations of an examination of the implementation of a major form of school based management SBM It is based on case studies of the science and mathematics departments of 10 high schools and 9 middle or junior high schools in 12 school systems almost all of which are urban school districts The study found that implementation often falls short of the ideal It did not find dramatic changes resulting from SBM However those schools and faculty members that took advantage of their added flexibility under SBM were able to achieve numerous small scale improvements The report provides a series of recommendations for school

districts and individual schools to increase the likelihood of successful implementation of decentralization efforts such as SBM. The findings and recommendations cover such issues as 1 the extent of decentralization of budgeting expenditure and personnel decisions 2 the role of site councils and department heads and 3 communication and training needs. Appendixes list participating schools and districts and contain a literature review. Contains 117 references. Author SLD. Final Report Santa Cruz County (Calif.). Grand Jury, 2000. Congressional Record United States. Congress, 2003. *Restructuring Education* Simon Hakim, Daniel Ryan, Judith C. Stull, 2000-08-30. American education is undergoing rapid change. Concern over poor student performance, the ability and motivation of teachers, and the inefficiency of school bureaucracy have led to numerous recommendations for changing the structure of American education. These vary from small changes in the current structure to wholesale privatization of public schools. The contributions in this book discuss a wide range of proposals including greater school choice, charter schools, promoting contact with the business community, public-private partnerships, and more. Several chapters assess the current research on choice and restructuring. Overall, the consensus is that proposed reforms have a good chance of yielding significant benefits. Creating Solidarity Across Diverse Communities Christine E. Sleeter, Encarnación Soriano, 2013-02-07. In this important book, experts from around the globe come together to examine what solidarity in multicultural societies might mean and how it might be built. With a variety of analytical perspectives and findings, the authors present original research conducted in the United States, New Zealand, Spain, France, Chile, Mexico, and India. Educators will recognize relationships between issues discussed in the book and their own places of work, helping them to better understand issues of diversity and take steps toward building solidarity in their own schools and communities. This book demonstrates the commonality of purpose across the globe to connect schools and teachers with the communities they serve and suggests avenues for bringing diverse understandings together to bridge antagonism and fear. Contributors: Isabelle Aliaga, Gilberto Arriaza, Andrés Calderón, María Antonia Casanova, Juan Francisco Contreras, Dolores Delgado Bernalis, Gina E. DeShera, Martine Dreyfus, Judith Flores Carmona, Anne Hynds, Verónica López, Mahendra Kumar Mishra, Carmen Montecinos, Jos Luis Ramos, Jos Ignacio Rodríguez, and Alice Wagner. Christine E. Sleeter is professor emerita in the College of Professional Studies at California State University, Monterey Bay, and President of the National Association for Multicultural Education. Her recent books include *Teaching with Vision* with Catherine Cornbleth. Encarnación Soriano is professor of research methods in education at the University of Almería, Spain. Whether educators are working with student populations perceived as diverse or homogeneous, *Creating Solidarity Across Diverse Communities* provides profound insights into strategies for building consensus, efficacy, and reducing prejudice and conflict. This is a well-researched volume on complex theories and diverse practices for building solidarity to effect educational change. Merry M. Merryfield, School of Teaching and Learning, The Ohio State University. **Conversations With Principals** Andrew E. Dubin, 2006-01-06. *Conversations With Principals: Issues, Values, and Politics* is a unique compilation of interviews with principals at the elementary, middle, and

secondary levels Unlike any other text in Educational Administration this book allows students the unusual opportunity to experience the inner voice of principals as they discuss the many decisions they make and the multitude of people they must engage Key Features Places students at the front line of leadership This book provides a simple straightforward and honest view of the realities of the principalship as experienced by those who assume these roles Each chapter offers a rare view into the minds of educational leaders as they honestly discuss their feelings and strategies behind their leadership practices Provides personal profiles and school demographic data The professional background of each principal is given so students can better understand their journey from an educator to a leadership position In addition each interview conveys a different school situation to demonstrate the complexity of the profession and allow readers to understand how different school contexts impact and affect decisions that are made Connects students to the material At the conclusion of each chapter comprehensive and probing questions role playing activities and leadership projects engage readers and connect them to the role of principal An analysis section provided after each interview reflects on the leader s approaches and decision making in a theoretical context that helps students link theory to application in a very practical and relevant way Intended Audience This is an excellent supplementary text for a variety of graduate courses in Educational Administration such as Introduction to School Administration Educational Leadership Principalship Foundations in Educational Organization Effective Leadership and Organizational Dynamics of the American Educational System **Restructuring Schools** W. Lowe Boyd, 2005-08-17 Education reform has become part of a political imperative in a number of developed countries around the world The simultaneous movement to reform schooling and the administrative structures which deliver educational services therefore needs to be studied in order to lay bare its fundamental assumptions This movement has been labelled restructuring and reform although the words carry different meanings in different countries The authors question why this reconstruction occurred at the same time in different places What common themes are emerging in the restructuring movement And in the 1990s where will the movement lead schooling and what essential changes will it effect They explore these questions by examining developments in the USA Canada the UK Australia New Zealand and Japan **Resources in Education** , 1998
