Disaffection with School Mathematics Gareth Lewis, 2015-12-17 Young peoples disaffection with mathematics is a problem since it is a key factor in disengagement lack of participation progression and attainment Large numbers of young people are becoming effectively lost to mathematics with the result that too many young people are leaving education without the competence in mathematics that they require for successful citizenship Disaffection with School Mathematics reports on an investigation into disaffection with school mathematics undertaken by the author Too little is known about both the nature and the causes of disaffection

and in this light the research looks beyond the quantitative study of attitude to investigate the nature of the subjective experience of learning or not learning mathematics Disaffection with school mathematics is characterized as a motivational and emotional phenomenon and Reversal Theory is introduced as a robust theory which is used as an interpretative framework to account for students affective experience of school mathematics and to inform the design of a range of novel methods Overall the book develops and presents a deep description of the landscape of disaffection as experienced by and in the voice of students Some empirical and theoretical implications of the study are discussed

More Maths for Mums and Dads Mike Askew, Rob Eastaway, 2013-02-21 A brilliant guide for parents through the troubled waters of GCSE maths and to help you to help your teenager to feel confident and even enjoy it especially when studying at home In their first bestselling book Maths for Mums and Dads Rob Eastaway and Mike Askew helped you and your child make sense of the new methods and topics covered in primary school maths But as your child embarks on secondary school two new issues arise First in the build up to GCSE school children begin to do maths that you probably have never encountered before or if you have you never really got it in the first place and have long since forgotten Factorising Finding the locus Solving for x Probability distributions What do these even mean More Maths for Mums and Dads gives you all the ammunition to help you to help your teenager get to grips with and feel more confident about and hopefully even enjoy GCSE maths It covers in straightforward and easy to follow terms the maths your child will encounter in the build up to GCSE in many cases gives practical and fun examples of where the maths crops up in the real world In addition the authors introduce the notion of estimation and coin a new term Zequals Using the Zequals method will help develop your teenager's feel for numbers which in turn could transform their experience and enjoyment of everyday maths

Image Analysis Heikki Kalviainen, Jussi Parkkinen, Arto Kaarna, 2005-06-30 This proceedings volume collects the scientific presentations of the Scandinavian Conference on Image Analysis SCIA 2005 which was held at the University of Joensuu Finland June 19-22 2005 The conference was the fourteenth in the series of biennial conferences started in 1980 The name of the series reflects the fact that the conferences are organized in the Nordic Scandinavian countries following the cycle Sweden Finland Denmark and Norway The event itself has always been international in its participants and presentations Today there are many conferences in the fields related to SCIA In this situation our goal is to keep up the reputation for the high quality and friendly environment of SCIA We hope that participants feel that it's worth attending the conference Therefore both the scientific and social program were designed to support the best features of a scientific meeting to get new ideas for research and to have the possibility to exchange thoughts with fellow scientists To fulfill the above mentioned goals the conference was a single track event This meant that a higher percentage of the papers than in earlier SCIA's were presented as posters We hope that this gave the participants better chances to follow the presentations that they were interested in SCIA 2005 attracted a

record number of submissions 236 manuscripts From these 124 were accepted 31 oral presentations and 93 poster presentations This led to an acceptance rate of 53% The program included also six plenary presentations and three tutorials
