Literary Theory: The Basics Hans Bertens, 2024-06-28 Now in its fourth edition *Literary Theory The Basics* is an essential guide to the complicated and often confusing world of literary theory Readers will encounter a broad range of topics from Marxist and feminist criticism to postmodernism queer studies and ecocriticism *Literary Theory The Basics* shows in an always lucid and accessible style how literary theory and practice are connected and considers key theories and approaches including humanist criticism structuralist and poststructuralist theory postcolonial theory posthumanism ecocriticism and animal studies digital humanities and print culture studies Literary theory has much to say about the wider world of humanities and beyond and this guide helps readers to approach the many theories and debates with confidence Expanded with updates throughout this is the go to guide for understanding literary theory today Digital Modernism Jessica Pressman, 2014-02 *Digital Modernism* examines how and why some of the most innovative works of online electronic literature adapt and allude to literary modernism Digital literature has been celebrated as a postmodern form that grows out of contemporary technologies subjectivities and aesthetics but this book provides an alternative genealogy Exemplary cases show electronic literature looking back to modernism for inspiration and source material in content form and ideology through which to critique contemporary culture In so doing this literature renews and reframes rather than rejects a literary tradition that it also reconfigures to center around media To support her argument Pressman pairs modernist works by Pound Joyce and Bob Brown with major digital works like William Poundstone's *Project for the Tachistoscope* Bottomless Pit 2005 Young hae Chang Heavy Industries's *Dakota* and Judd Morrissey's *The Jew's Daughter* With each pairing she demonstrates how the modernist movement of the 1920s and 1930s laid the groundwork for the innovations of electronic literature In sum the study situates contemporary digital literature in a literary genealogy in ways that rewrite literary history and reflect back on literature's past modernism in particular to illuminate the crucial role that media played in shaping the ambitions and practices of that period **Field Notes** Zachary Lockman, 2016-03-30 *Field Notes* reconstructs the origins and trajectory of area studies in the United States focusing on Middle East studies from the 1920s to the 1980s Drawing on extensive archival research Zachary Lockman shows how the Carnegie Rockefeller and Ford foundations played key roles in conceiving funding and launching postwar area studies expecting them to yield a new kind of interdisciplinary knowledge that would advance the social sciences while benefiting government agencies and the American people Lockman argues however that these new academic fields were not simply a product of the Cold War or an instrument of the American national security state but had roots in shifts in the humanities and the social sciences over the interwar years as well as in World War II sites and practices This book explores the decision making processes and visions of knowledge production at the foundations the Social Science Research Council and others charged with guiding the intellectual and institutional

development of Middle East studies Ultimately Field Notes uncovers how area studies as an academic field was actually built a process replete with contention anxiety dead ends and consequences both unanticipated and unintended

Sociocultural Studies in Education Richard A Quantz,2016-01-08 Sociocultural Studies in Education Critical Thinking for Democracy fills a void in the education of educators and citizens in a democracy It explores some of the fundamentals around which disagreements in education arise It presents a process with which those new to these debates can understand often confusing and entwined sets of facts and logics This book leads the reader through some general concepts and intellectual skills that provide the basis for making sense out of the debates around public education in a democracy This book can be seen as a primer on how to read texts about education It acknowledges that good teachers must be not only trained to teach but also educated about education It presents the various themes and currents found within the arguments and narratives that people use to represent public education It assumes that the more those interested in education know about how to see through the rhetoric the better they will be at discerning whose interests are served by which texts

Social Anthropology in the Arab World Abdullah Alajmi,Daniele Cantini,Irene Maffi,Imed Melliti,2025-08-01 There are ongoing efforts in anthropology to decolonise its history and give fairer space to marginalised traditions This book examines the history and institutionalisation of anthropology in the Maghreb the Mashreq and the Gulf in an open and collaborative manner and from various perspectives Its primary focus is two fold first to reorient the anthropological focus towards studies conducted in the region particularly on the conditions conducive to the institutionalisation of anthropological knowledge second to shed light on anthropological studies in languages other than English offering different theoretical and epistemological perspectives

Photo Reading Silviu Vasile, This book tells you a lot about speed reading and photography You are in the privileged position from which you can continue to increase your reading speed while maintaining the same rate of comprehension of the text The course is complex but you can choose exactly those techniques that suit you best All of these techniques can be reduced to two or three main techniques that you have seen work for you and those you can keep exploring and why not improving Speed reading can be condensed into a single sentence but that doesn't change the facts of the matter If I want to go to the gym because I want to have a worked body and the trainer shows me the exercises I need to do in a session that doesn't automatically mean I'll look good It's one thing to learn technique in a few minutes and another to exercise every day You need willpower discipline and determination to repeat the basic exercises daily Without constant effort you cannot achieve results If you go to the gym three times a week then you start to form a habit and this habit helps you to live in the culture of sport Being connected to the information in that sport and being able to generate so much enthusiasm that it counteracts your desire to give up the fight and return to your comfort zone That's why I wrote about speed reading to start living in the culture of this wonderful field You have speed reading on your side With it you can get to break the 1000 words per minute barrier That means you'll be able to read four times faster than the average person with the same or even better comprehension of the text EXAMS AND SPEED READING

Silviu Vasile, There are many books programs and speed reading trainings that offer information but few that offer value There are more and more people who want to teach you about speed reading which is basically great It's just that there from the information about this extraordinary field you have to be able to extract the essence and be able to pass it on I've been studying speed reading for the last 15 years I have done it with passion and dedication I have made speed reading an important goal and I have lived in the culture of speed reading I have spent thousands of hours thinking about what is important in this area and I think I have come to understand the importance of speed reading for the mind and body What I present in my books is information that you can put to use immediately getting good and great results What you start building today will become the cornerstone of your personal and professional success tomorrow The more you decide to invest in valuable knowledge the more it will transform you and make

you a person capable of climbing step by step to the place where you can reap the full fruits of your labour It s a long road to get there and I d be lying to you if I said it was an easy road You need a lot of willpower and discipline to be able to take those exams that life offers you as a chance to find out who you really are and what are the things that limit you inside All those inner limitations will stop you in your tracks block you or turn you back even when you may have very little left to finish What you learn from speed reading will help you make choices and not just any choices but choices that will bring real change to your life Think of yourself as living in a consumer world and if you look back you will see that you have bought many products and services that you have not used You ve bought a subscription you didn t use or a fitness machine you used a few times and then forgot about it When you bought it you promised yourself that you would use it every day and yet you didn t It happened because you didn t live or don t live long enough in the culture of that thing You don t realize how important it is and how much you need to exercise otherwise you would find the time and energy to exercise regularly maybe even daily

Becoming a Writing Researcher Ann M. Blakeslee, Ann Blakeslee, Cathy Fleischer, 2009-03-04 *Becoming a Writing Researcher* effectively guides students through the stages of conducting qualitative writing research from the initial step of seeing themselves as researchers to identifying research questions selecting appropriate tools conducting the research and interpreting and reporting the findings Authors Ann M Blakeslee and Cathy Fleischer describe various qualitative methods and provide readers with examples of real world applications Exercises and activities as well as anecdotes from both novice and seasoned researchers serve to acquaint readers thoroughly with the practice of carrying out research for scholarly or professional purposes The textbook introduces students to research methods in a gradual and contextualized manner Each chapter opens with a discussion of general issues regarding a particular portion of the research process followed by a consideration of the various physical conceptual and strategic tools that allow a beginning researcher to conduct that part of the process Sections within each chapter also cover personal and theoretical perspectives and biases that influence specific stages of the research process ethical issues associated with phases of the research process the identity ethos and experiences of the researcher *Becoming a Writing Researcher* is an essential text for all novice researchers and is well suited for use in graduate level research methods courses in composition and technical communication It is also ideal for use in other disciplines with strong qualitative methodology research programs including education
