Lynn Brunet,2018-11-08 The Red Book is C G Jung s record of a period of deep penetration into his unconscious mind in a process that he called active imagination undertaken during his mid life period Answer to Jung Making Sense of The Red Book provides a close reading of this magnificent yet perplexing text and its fascinating images and demonstrates that the fantasies in The Red Book are not entirely original but that their plots characters and symbolism are remarkably similar to some of the higher degree rituals of Continental Freemasonry It argues that the fantasies may be memories of a series of terrifying initiatory ordeals possibly undergone in childhood using altered or spurious versions of these Masonic rites It then compares these initiatory scenarios with accounts of ritual trauma that have been reported since the 1980s This is the first full length study of The Red Book to focus on the fantasies themselves and provide such an external explanation for them Sonu Shamdasani describes The Red Book as an incomplete task that Jung left to posterity as a message in a bottle that would someday come ashore Answer to Jung brings its message to shore providing a coherent but disturbing interpretation of each of the fantasies and their accompanying images Chapters Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license **Jung`s Red Book For Our Time** Murray Stein ,Thomas Arzt,2020-03-12 Edited by Murray Stein

and Thomas Arzt the essays in the series Jung s Red Book for Our Time Searching for Soul under Postmodern Conditions are geared to the recognition that the posthumous publication of The Red Book Liber Novus by C G Jung in 2009 was a meaningful gift to our contemporary world To give birth to the ancient in a new time is creation Jung inscribed in his Red Book The essays in this volume continue what was begun in Volume 1 of Jung s Red Book for Our Time Searching for Soul under Postmodern Conditions by further contextualizing The Red Book culturally and interpreting it for our time It is significant that this long sequestered work was published during a period in human history marked by disruption cultural disintegration broken boundaries and acute anxiety The Red Book offers an antidote for this collective illness and can be seen as a link in the aurea catena the golden chain of spiritual wisdom extending down through the ages from biblical times ancient Greek philosophy early Christian and Jewish Gnosis and alchemy The Red Book is itself a work of creation that gives birth to the old in a new time This is the second volume of a three volume series set up on a global und multicultural level and includes essays from the following distinguished Jungian analysts and scholars Murray Stein and Thomas Arzt

Jung's Alchemical Philosophy Stanton Marlan, 2022-04-27 Winner of the IAJS Book Award 2023 for Best Theoretical Book Traditionally alchemy has been understood as a precursor to the science of chemistry but from the vantage point of the human spirit it is also a discipline that illuminates the human soul This book explores the goal of alchemy from Jungian psychological and philosophical perspectives Jung's Alchemical Philosophy Psyche and the Mercurial Play of Image and Idea is a reflection on Jung's alchemical work and the importance of philosophy as a way of understanding alchemy and its contributions to Jung's psychology By engaging these disciplines Marlan opens new vistas on alchemy and the circular and ouroboric play of images and ideas shedding light on the alchemical opus and the transformative processes of Jungian psychology Divides in the history of alchemy and in the alchemical imagination are addressed as Marlan deepens the process by turning to a number of interpretations that illuminate both the enigma of the Philosophers Stone and the ferment in the Jungian tradition This book will be of interest to Jungian analysts and those who wish to explore the intersection of philosophy and psychology as it relates to alchemy

Carl Jung Paul Bishop, 2014-03-15 Swiss born Carl Gustav Jung 1875 1961 was one of the pioneers of psychology largely responsible for the introduction of now familiar psychological terms such as introvert extrovert and collective unconscious But in spite of this Jung has often remained on the fringes of academic discourse Seeking to understand Jung in view of not only his life but also in light of his extensive reading and prolific writing this new biography reclaims Jung as a major European thinker whose true significance has not been fully appreciated Paul Bishop follows Jung from his early childhood to his years at the University of Basel and his close relationship and eventual break with Sigmund Freud Exploring Jung's ideas Bishop takes up the psychiatrist's suggestion that the tragedies of Goethe's Faust and

Nietzsche's Thus Spoke Zarathustra mark the first glimmerings of a breakthrough of total experience in our Western hemisphere engaging with Jung's scholarship to offer one of the fullest appreciations yet of his distinctive approach to culture. Bishop also considers the role that the Red Book written between 1914 and 1930 but not published until 2009 played in the progression of Jung's thought allowing Bishop to provide a new assessment of this divisive personality. Jung's attempt to synthesize the different parts of human life Bishop argues marks the man as one of the most important theorists of the twentieth century. Providing a compelling examination of the life of this highly influential figure the concise and accessible Carl Jung will find a place on the shelves of students scholars and both clinical and amateur psychologists alike.
