Coerced Erin Hatton, 2020-03-24 What do prisoner laborers graduate students welfare workers and college athletes have in common According to sociologist Erin Hatton they are all part of a growing workforce of coerced laborers *Coerced* explores this world of coerced labor through an unexpected and compelling comparison of these four groups of workers for whom a different definition of employment reigns supreme one where workplace protections do not apply and employers wield expansive punitive power

far beyond the ability to hire and fire Because such arrangements are common across the economy Hatton argues that coercion as well as precarity is a defining feature of work in America today Theoretically forceful yet vivid and gripping to read Coerced compels the reader to reevaluate contemporary dynamics of work pushing beyond concepts like career and gig work Through this bold analysis Hatton offers a trenchant window into this world of work from the perspective of those who toil within it and who are developing the tools needed to push back against it **Athletic Director's Desk Reference**

Unwinding Madness Gerald S. Gurney, Donna A. Lopiano, Andrew Zimbalist, 2016-12-13 A critical look at the tension between the larger role of the university and the commercialization of college sports Unwinding Madness is the most comprehensive examination to date of how the NCAA has lost its way in the governance of intercollegiate athletics and why it is incapable of achieving reform and must be replaced The NCAA has placed commercial success above its responsibilities to protect the academic primacy health and well being of college athletes and fallen into an educational ethical and economic crisis As long as intercollegiate athletics reside in the higher education environment these programs must be academically compatible with their larger institutions subordinate to their educational mission and defensible from a not for profit organizational standpoint The issue has never been a matter of whether intercollegiate athletics belongs in higher education as an extracurricular offering Rather the perennial challenge has been how these programs have been governed and conducted The authors propose detailed solutions starting with the creation of a new national governance organization to replace the NCAA At the college level these proposals will not diminish the revenue production capacity of sports programs but will restore academic integrity to the enterprise provide fairer treatment of college athletes with better health protections and restore the rights and freedoms of athletes which have been taken away by a professionalized athletics mentality that controls the cost of its athlete labor force and overpays coaches and athletic directors Unwinding Madness recognizes that there is no easy fix to the problems now facing college athletics But the book does offer common sense doable solutions that respect the rights of athletes protects their health and well being while delivering on the promise of a
