therapeutics and their progress in today's multidisciplinary approach to cancer treatment. Clearly structured throughout the book, not only provides information on currently used molecular treatment approaches but also describes the various agents that are currently at various stages of development and clinical trials, thus making them the drugs of tomorrow. The book goes on to present current therapeutic regimes including their indications and side effects as well as their position in the international market in terms of sales and development costs. Furthermore, coverage of our advancement in the understanding of cancer biology and how this has driven the drug discovery process is clearly discussed. Modern drug discovery aspects through genomic, proteomic, and metabolomic approaches are referred to as well as combinatorial chemistry techniques and discovery of chemotherapeutic agents from plant extracts, re-use of old drugs, and drugs from other indications or de novo rational drug design. Including contributions from leading experts in the field, this book provides the reader with a complete overview of the various types of therapeutic agents, current and emerging, as well as other aspects associated with anticancer therapy, drug design, resistance, and clinical trials in oncology.

General Internal Medicine - Comprehensive Clinical Guide Mr. Rohit Manglik, 2024-06-24 A complete reference for diagnosis and treatment across a wide spectrum of adult medical conditions in general practice.

National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1988

Oncologic Emergency Medicine Knox H. Todd, Charles R. Thomas, Jr., 2016-05-13 This is the first comprehensive clinical reference on cancer emergencies. It is edited and written by world-renowned experts in emergency medicine and oncology and covers the diagnosis and management of the full range of emergencies caused directly by cancer or by its treatment. It shows how the entire spectrum of clinical medicine is brought to bear in the care of cancer patients in the unique setting of the emergency department (ED) from health promotion and prevention to treatment and palliative care. Recognizing the multiple overlapping contexts in which emergency care of cancer patients occurs, the book addresses clinically crucial interdisciplinary topics such as the ethics of ED cancer care, the interface with palliative social work, substance abuse, and more. Finally, perspective on care system and social forces that shape ED cancer care such as cancer care disparities and care models and on how ED cancer care is delivered outside of the United States frame the book as a whole. Against the backdrop of rising numbers of cancer patients and survivors as the United States population ages and a forecast shortage of oncologists, this book is designed to serve as the authoritative single source clinical reference on cancer emergencies. The intended audience includes emergency physicians, oncologists, internists, family physicians, emergency nurses, nurse practitioners, physician assistants, policy makers, as well as pre and postgraduate trainees.

The 5-Minute Clinical Consult Standard 2015 Frank J. Domino, Robert A. Baldor, Jill A. Grimes, Jeremy Golding, 2014-04-09 The 5 Minute Clinical Consult provides rapid access information on the diagnosis, treatment, medications, follow-up, and associated conditions of more than 700 medical conditions. Organized alphabetically by diagnosis, this best-selling clinical reference continues to present brief bulleted points on disease topics in a consistent templated format.

Diet and Health National

Research Council, Division on Earth and Life Studies, Commission on Life Sciences, Committee on Diet and Health, 1989-01-01

Diet and Health examines the many complex issues concerning diet and its role in increasing or decreasing the risk of chronic disease. It proposes dietary recommendations for reducing the risk of the major diseases and causes of death today: atherosclerotic cardiovascular diseases including heart attack and stroke, cancer, high blood pressure, obesity, osteoporosis, diabetes mellitus, liver disease, and dental caries.

The Medical Library Association Guide to Cancer Information Ruti Malis Volk, 2007

According to the American Cancer Society, over 10 million Americans have a history of cancer, and the over 100 distinct forms of cancer affect those individuals and their families in very different ways. When patrons come to your library with cancer-related questions, will you be prepared with the best resources for them to consult? Now the Medical Library Association and Ruti Volk, Manager of the Patient Education Resource Center at the University of Michigan's Comprehensive Cancer Center, have assembled an authoritative guide to the best cancer information resources for all levels of readers. Chapters are devoted to both specific types of cancer: breast, brain, colon, liver, lung, lymphoma, melanoma, childhood cancers, and more; and cancer-related topics: chemotherapy, radiation, herbal supplements, nutrition, fertility, talking with children about cancer, etc. Each chapter contains a general introduction to the topic with an overview of the information needs of patients and caregivers. For each type of cancer, the author provides an invaluable annotated list of resources including pamphlets, brochures, consumer health titles, book chapters, reference sources, videos, CD-ROMs, Web sites, and more that incorporates both introductory works and more advanced treatments. Additional resources such as cancer patient organizations and online listservs are also featured. Whether utilizing as an aid in cancer-related searches or as a tool for building a consumer health collection, this unique guide will help any public, academic, or medical library better meet the health information needs of their users.
