Excerpt from A Manual of Telephony In November 1888 was published one of the volumes of the Specialists Series entitled The Telephone the authors being W H Preece and Julius Maier Ph D The reception extended to this work was of the most gratifying character but the rapid strides made in practical telephony since that time together with the fact that Dr Maiers services were no longer available led to the decision that the original volume should not be re issued but should be replaced by the present work We desire here to recognise and acknowledge the use that we have made of Dr Maiers previous labours particularly in connection with the earlier portions of this book which deal principally with historical telephony No slight difficulty has been experienced in determining what information should be given and what excluded As on the one hand a minute and particular description of all conditions is unnecessary for the experienced specialist so on the other hand the neglect of minor details may lead to very great inconvenience to others who in isolated districts wish to avail themselves of the fruits of the labours of their more favoured colleagues We have spared no pains to secure such due proportion in the descriptions of the various apparatus and systems as shall meet the wants of both these classes About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      Technical Manual ,1942      *Farm Telephone Manual* ,193?      The C.
