unintended deaths of civilians in war are too often dismissed as unavoidable inevitable and accidental And despite the best
efforts of the U S to avoid them civilian casualties in Afghanistan Iraq and Pakistan have been a regular feature of the United
States wars after 9 11 In *Accountability for Killing* Neta C Crawford focuses on the causes of these many episodes of
foreseeable collateral damage and the moral responsibility for them The dominant paradigm of legal and moral responsibility
in war today stresses both intention and individual accountability Deliberate killing of civilians is outlawed and international
law blames individual soldiers and commanders for such killing An individual soldier may be sentenced life in prison or death
for deliberately killing even a small number of civilians but the large scale killing of dozens or even hundreds of civilians may
be forgiven if it was unintentional incidental to a military operation The very law that protects noncombatants from
deliberate killing may allow many episodes of unintended killing Under international law civilian killing may be forgiven if it
was unintended and incidental to a militarily necessary operation Given the nature of contemporary war where military
organizations training and the choice of weapons doctrine and tactics create the conditions for systemic collateral damage
Crawford contends that placing moral responsibility for systemic collateral damage on individuals is misplaced She develops
a new theory of organizational moral agency and responsibility and shows how the US military exercised moral agency and
moral responsibility to reduce the incidence of collateral damage in America s most recent wars Indeed when the U S
military and its allies saw that the perception of collateral damage killing was causing it to lose support in the war zones it
moved to a population centric doctrine putting civilian protection at the heart of its strategy Trenchant original and ranging
