HWM ,2008-12 Singapore s leading tech magazine gives its readers the power to decide with its informative articles and in depth reviews **The Practitioner's Guide to Antitrust in China** Becky Nao Koblitz,2015-08-27 Management and legal counsel of foreign companies operating in China as well as those outside China with Chinese business desperately need to keep up with the fast paced antitrust developments in the most dynamic market in the world The author of this book Becky Koblitz is a seasoned antitrust lawyer for a major U S law firm in Beijing She has decades of legal experience as a prosecutor at the Antitrust Division of the U S Department of Justice as well as in house counsel for a German subsidiary of a major American real estate development company and as a lawyer at law firms globally Her rich experience in the U S Europe and China now often regarded as the three centers of global antitrust makes her the perfect candidate to write a book on China s antitrust development Her book is a quick read that tells what there is to know about China s antitrust enforcement and includes practical advice and examples for the various aspects of antitrust dealing with competitors dealing within the supply chain mergers etc She writes in a straight forward language such that non antitrust lawyers can get beyond stock phrases like illicit price coordination abuse of dominance or unilateral effect Her book is a valuable and practical cookbook for antitrust compliance training and beyond Another feature of the book is that it provides both legal and economic perspectives on antitrust analysis in China which is important given that economic analysis is increasingly adopted by China s antitrust agencies and the Chinese courts Thus understanding the logic and methodology behind economic analysis as applied to Chinese cases is key to conducting proper antitrust legal analysis that is tailored to the Chinese context To write a book on the burgeoning antitrust enforcement and practice for the constantly evolving Chinese market is a real challenge The trick and it is not as easy as you would think is to write simple declarative sentences understandable to the antitrust layman and at the same time not lose the rigor of antitrust analysis I think this relatively short book is a remarkable achievement in meeting such a challenge but I invite you to judge for yourself **Buying Guide 2008** Consumer Reports,2007-11-13 *Newnes Guide to Television and Video Technology* K. Forged in War R. David Lankes, 2021-05-15 I deal for readers seeking a more comprehensive look at information dissemination technology its context and its impact on the way in which we now live Library Journal Starred Review Many of what we think of as Information Age tools and media computers cell phones the internet encryption and more evolved directly out of modern warfare These tools started with World War I which began not with arms but with England cutting off underwater cables to Germany and isolating it accelerated through World War II and the Cold War and now play a center role in both declared and non declared conflicts like election interference and cyberbattles We buy phones and smart speakers because they are new and unlock great potential Voice assistants like Siri and Alexa help us do our work and answer that one piece of trivia that bugs us Yet these devices are data gatherers They collect repackage and monetize our questions purchases photographs web surfing to form a data industry now larger than the oil industry Well over 100 years ago the data industry put in place a business model that trades our attention for news and entertainment That model has evolved into a complex art and science of message targeting and content ownership that has splintered communities while simultaneously concentrating media ownership to a few massive corporations Forged in War takes a critical look at the systems we use and how we ended up in a society that values data over personal liberty and commerce over the public good It tells a compelling and previously untold story of how our ideas of information and knowledge reflect the century of war that has militarized our worldview Author David Lankes's work has been funded by organizations such as The MacArthur Foundation The Institute for Library and Museum Services NASA The U S Department of Education The U S Department of Defense The National Science Foundation and The U S State Department This his latest book will help all of us learn how war has shaped our world and how to begin to create an agenda to stand down weaponized data and a media that seeks to own our personal even intimate data like one owns a gold mine

BeLight Vol. 02 , **Private International Law and Competition Litigation in a Global Context** Mihail Danov, 2023-09-21 This important book systematically analyses the private international law issues regarding private antitrust damages claims which arise out of transnational competition law infringements It identifies those problems that need to be considered by injured parties defendants judges and policy makers when dealing with cross border private antitrust damages claims in a global context It considers the post Brexit landscape and the implications in cross border private proceedings before the English courts and suggests how the legal landscape should be developed It also sets out how private international law techniques could play an increasingly important role in private antitrust enforcement Comprehensive and rigorous this is required reading for scholars of both competition litigation and private international law
