Contra-invention Mocksim Mocksim,2011-05-17 Contra Invention is an exhibition of the photographs Traffic Wardens correctly termed Civil Enforcement Officers and amusingly abbreviated to CEOs take in one British town as proof of unlawful parking there The artist discovered that these images of other people s illegally parked cars were easy to obtain and download from the local council s system Note since the project in 2010 the system has been changed art has an impact Interestingly by default embedded in the downloaded image files is information such as camera type shutter speed aperture and more exactly the kinds of data certain photography geeks love to keep In addition due to lack of expertise as photographers or with the laws of physics presumably CEOs occasionally capture themselves in reflection in their own pictures Lastly it was possible for the artist to manoeuvre himself into the photographs by following warden s around and waiting for the famous decisive moment Lots of jokes and puns here this is an exhibition of Fine Art etc but more seriously questions are raised about the actual quality or significance of the images if blown up and presented differently can these be viewed in relation to art painting history who is the author is this political art what about cars as subject matter www.mocksim.org
