However, this potential is often unfully harnessed and the benefits of digital AEAS unequally distributed due to an evident widening digital divide between rural and urban areas, gender and different social groups both within and among regions. Due to low level e-literacy and digital skills particularly smallholder farmers in rural areas in developing countries have limited access to and utilization of digital AEAS. Considering the above mentioned benefits of digital AEAS, their poor uptake by smallholder farmers and the importance of digital empowerment of smallholder farmers in particular, this guide targeting smallholder farmers in need of digital AEAS as its principal users provides a set of tools to enhance their digital skills in terms of basic knowledge and skills on using digital tools, methods of access to digital AEAS, methods of access to e-commerce and capacity building. **Computerworld**
